

## Oakwood Project Update – August 8, 2020

The Contractor reached a major milestone this week by completing new concrete sidewalk and driveway aprons on Oakwood Avenue to complete the walking connection from Olean Street to Hamburg Street. Great news!

For next week, pavement repairs between Olean Street and Park Place are scheduled to begin on Wednesday August 12. The Contractor expects to complete these pavement repairs by the end of next week and anticipated impacts include daytime closing of sections of Oakwood Avenue in that area. Other isolated construction activities are expected through the week on various blocks and residents/businesses will be notified directly of anticipated impacts on their block. Residents should travel on Oakwood Avenue only when necessary and are reminded that it is an active construction zone. All blocks west of Center Street remain closed to Local Traffic Only with intended access for residents of the blocks and emergency vehicles only.

***Beginning Monday, August 10, please do not park on any blocks of Oakwood Avenue on weekdays from 7 a.m. to 5 p.m.***

Note that materials and equipment are stored along the project route in the right-of-way. To ensure everyone's safety, all persons, including adults and children, must avoid material stockpiles and equipment. Please contact me at the number listed below if you have any questions and thank you for your patience and understanding.
