

Oakwood Update - September 8, 2020

Paving on Oakwood was completed last week and the road is open to local traffic. Thanks to all Oakwood residents and businesses for their patience.

Work continues this week finishing intersection paving connecting the short sections of asphalt on the side streets to the main road. While this work is finished some intersections will be closed at the side streets, but through traffic on Oakwood should not be a problem.

The closure at Hamburg will remain until striping is completed on Oakwood. A further update will be provided when striping is scheduled.

Continue to contact this email address or call the Oakwood phone at 475-2122 for any assistance.
