**Water Tap Permit Fee Schedule**

3/4" Tap	Application Fee - \$500.00 Plus Time & Materials to Install Tap & Curb Box
1" Tap	Application Fee - \$500.00 Plus Time & Materials to Install Tap & Curb Box
+1" Tap	Application Fee - \$700.00 Plus (Labor & Materials) responsibility of applicant, upon Village approval of plans.

I/WE \_\_\_\_\_ hereby make application for \_\_\_\_\_ (size) Water Tap, to be installed at \_\_\_\_\_ under the supervision of the authorized agent of the Village of East Aurora at a minimum cost of \$\_\_\_\_\_.

I/We agree that all pipe between curb stop and water meter be of type "K" Copper or Ductile.

That: Before pipe is covered or trench is filled, the office of the Code Enforcement Officer or Superintendent of Public Works shall be notified for inspection of the installation. (Inspections to be made between 8:00 AM and 3:00 PM)

That: Meter must be installed in conjunction with tap. Flared meter valve to be put on service before meter is installed. Meter to be installed on inside of exterior wall, closest to tap as per §263-11B of the Village Code. The Village shall furnish and install a water meter within the building to be served, such water meter shall remain the property of the village, and installations shall be made in accordance with village rules. If the line is over seventy-five (75) feet long (measured from the tap on the main), such meter shall be placed in a vault at or near the street line, and constructed to meet village requirements at owners expense (at least 6" below & above water line of uniform bedding stone no larger than #1's or 1" stone shall be used). Vault is to be kept dry at all times, by the owner.

That: Curb Box shall be no deeper than 48" at final grade.
